Cicero, The governor of Sicily tours his province

laborem itinerum iste facilem sibi et iucundum ratione consilioque reddidit. primum mensibus hibernis, ad magnitudinem frigorum et tempestatum vim, hoc sibi praeclarum remedium comparaverat. urbem Syracusas elegerat, ubi ita vivebat iste bonus imperator ut eum non facile non modo extra tectum sed ne extra lectum quidem quisquam viderit; ita diei brevitās conviviis, noctis longitudo stupris et flagitiis continebatur. 5

cum autem ver esse coeperat – cuius initium iste non a Favonio neque ab aliquo astro notabat, sed cum rosam viderat tum incipere ver arbitrabatur – dabat se labori atque itineribus; in quibus adeo se praebebat patientem atque impigrum ut eum nemo umquam in equo sedentem viderit. nam, ut mos fuit Bithyniae regibus, lectica octaphoro ferebatur, in qua pulvinus erat perlucidus Melitensis rosa fartus; ipse autem coronam habebat unam in capite, alteram in collo, reticulumque ad nares sibi admovebat tenuissimo lino, minutis maculis, plenum rosae. sic confecto itinere cum ad aliquod oppidum venerat, eadem lectica usque in cubiculum deferebatur. eo veniebant Siculorum magistratus, veniebant equites Romani; controversiae secreto deferebantur, paulo post palam decreta auferebantur. deinde ubi paulisper in cubiculo pretio iura discripserat, Veneri iam et Libero reliquum tempus deberi arbitrabatur. 10 15 20

Horace, A journey by canal

egressum magna me accepit Aricia Roma
hospitio modico; rhetor comes Heliodorus,
Graecorum longe doctissimus; inde Forum Appi
differtum nautis cauponibus atque malignis.
hoc iter ignavi divisimus, altius ac nos
praecinctis unum: minus est gravis Appia tardis.
hic ego propter aquam, quod erat deterrima, ventri
indico bellum, cenantes haud animo aequo
exspectans comites.

5

iam nox inducere terris
umbras et caelo diffundere signa parabat.
tum pueri nautis, pueris convicia nautae
ingerere: 'huc adpelle'; 'trecentos inseris'; 'ohe,
iam satis est.' dum aes exigitur, dum mula ligatur,
tota abit hora. mali culices ranaeque palustres
avertunt somnos, absentem ut cantat amicam
multa prolutus vappa nauta atque viator
certatim. tandem fessus dormire viator
incipit, ac missae pastum retinacula mulae
nauta piger saxo religat stertitque supinus.

10

15

20

iamque dies aderat, nil cum procedere lintrem
sentimus, donec cerebrosus prosilit unus
ac mulae nautaeque caput lumbosque saligno
fuste dolat. quarta vix demum exponimur hora.
ora manusque tua lavimus, Feronia, lympha.
milia tum pransi tria repimus atque subimus
impositum saxis late candentibus Anxur.

25

Juvenal, The unpleasantness of city traffic

nam quae meritoria somnum admittunt? magnis opibus dormitur in urbe. inde caput morbi. raedarum transitus arto vicorum in flexu et stantis convicia mandrae eripient somnum Druso vitulisque marinis.	5
si vocat officium, turba cedente vehetur dives et ingenti curret super ora Liburna atque obiter leget aut scribet vel dormiet intus; namque facit somnum clausa lectica fenestra. ante tamen veniet: nobis properantibus obstat	10
unda prior, magno populus premit agmine lumbos qui sequitur; ferit hic cubito, ferit assere duro alter, at hic tignum capiti incutit, ille metretam. pinguia crura luto, planta mox undique magna calcor, et in digito clavus mihi militis haeret.	15

Martial, A slow journey

ad primum decima lapidem quod venimus hora,
arguimur lentae crimine pigritiae.
non est ista viae, non est mea, sed tua culpa est,
misisti mulas qui mihi, Paete, tuas.

Ovid, Sailing to exile in Tomis

di maris et caeli – quid enim nisi vota supersunt? –	
solvere quassatae parcite membra ratis,	
me miserum, quanti montes volvuntur aquarum!	
iam iam tacturos sidera summa putes.	
quantae diducto subsidunt aequore valles!	5
iam iam tacturas Tartara nigra putes.	
quocumque aspicio, nihil est, nisi pontus et aer,	
fluctibus hic tumidus, nubibus ille minax.	
inter utrumque fremunt immani murmure venti.	
nescit, cui domino pareat, unda maris.	10
nam modo purpureo vires capit Eurus ab ortu,	
nunc Zephyrus sero vespere missus adest,	
rector in incerto est nec quid fugiatve petatve	
invenit: ambiguus ars stupet ipsa malis.	
scilicet occidimus, nec spes est ulla salutis,	15
dumque loquor, vultus obruit unda meos.	

Pliny, A governor travels to his province

C. PLINIUS TRAIANO IMPERATORI

quia confido, domine, ad curam tuam pertinere, nuntio tibi me Ephesum cum omnibus meis navigasse quamvis contrariis ventis retentum. nunc destino partim orariis navibus, partim vehiculis provinciam petere. nam sicut itineri graves aestus, ita 5
continuae navigationi etesiae reluctantur.

TRAIANUS PLINIO

recte renuntiasti, mi Secunde carissime. pertinet enim ad animum meum, quali itinere provinciam pervenias. prudenter autem constituis interim navibus, interim vehiculis uti, prout 10
loca suaserint.

C. PLINIUS TRAIANO IMPERATORI

sicut saluberrimam navigationem, domine, usque Ephesum expertus ita inde, postquam vehiculis iter facere coepi, gravissimis aestibus atque etiam febriculis vexatus Pergami 15
substiti. rursus, cum transissem in orarias naviculas, contrariis ventis retentus aliquanto tardius quam speraveram, id est XV Kal. Octobres, Bithyniam intravi. non possum tamen de mora queri, cum mihi contigerit, quod erat auspiciatissimum, natalem 20
tuum in provincia celebrare.

Seneca, Sea-sick crossing the Bay of Naples!

quid non potest mihi persuaderi, cui persuasum est ut navigarem? solvi mari languido; erat sine dubio caelum grave sordidis nubibus, quae fere aut in aquam aut in ventum resolvuntur, sed putavi tam pauca milia a Parthenope tua usque Puteolos subripi posse, quamvis dubio et impendente caelo. itaque quo celerius evaderem, protinus per altum ad Nesida derexi praecisurus omnes sinus. 5

cum iam eo processissem ut mea nihil interesset utrum irem an redirem, primum aequalitas illa quae me corruerat periit; nondum erat tempestas, sed iam inclinatio maris ac subinde crebrior fluctus. coepi gubernatorem rogare ut me in aliquo litore exponeret: aiebat ille aspera esse et importuosa nec quicquam se aeque in tempestate timere quam terram. peius autem vexabar quam ut mihi periculum succurreret; nausia enim me segnis haec et sine exitu torquebat, quae bilem movet nec effundit. institi itaque gubernatori et illum, vellet nollet, coegi, peteret litus. 10 15

cuius ut viciniam attigimus, non exspecto ut quicquam ex praeceptis Vergilii fiat – ‘obvertunt pelago proras’ aut ‘ancora de prora iacitur’: memor artificii mei vetus frigidae cultor mitto me in mare, quomodo psychrolutam decet, gausapatus. quae putas me passum dum per aspera erepo, dum viam quaero, dum facio? intellexi non immerito nautis terram timeri. incredibilia sunt quae tulerim, cum me ferre non possem: illud scito, Ulixem non fuisse tam irato mari natum ut ubique naufragia faceret: nausiator erat. et ego quocumque navigare debuero vicensimo anno perveniam. 20 25

Horace, Omens good and bad

impious parrae recinentis omen
ducat et praegnans canis aut ab agro
rava decurrens lupa Lanuvino
fetaque volpes;

rumpat et serpens iter institutum, 5
si per obliquum similis sagittae
terruit mannos: ego cui timebo
providus auspex,

antequam stantes repetat paludes 10
imbrium divina avis inminentum,
oscinem corvum prece suscitabo
solis ab ortu.

sis licet felix, ubicumque mavis,
et memor nostri, Galatea, vivas,
teque nec laevus vetet ire picus 15
nec vaga cornix.

Martial, Cures for bad dreams

semper mane mihi de me mera somnia narras,
quae moveant animum sollicitentque meum.
iam prior ad faecem, sed et haec vindemia venit,
exorat noctes dum mihi saga tuas;
consumpsi salsasque molas et turis acervos; 5
decrevere greges, dum cadit agna frequens;
non porcus, non chortis aves, non ova supersunt.
aut vigila aut dormi, Nasidiane, tibi.

Ovid, Dipsas the sorceress

est quaedam (quicumque volet cognoscere lenam, audiat) est quaedam nomine Dipsas anus. ex re nomen habet: nigri non illa parentem Memnonis in roseis sobria vidit equis.	
illa magas artes Aeaeaque carmina novit, inque caput liquidas arte recurvat aquas; scit bene quid gramen, quid torto concita rhombo licia, quid valeat virus amantis equae.	5
cum voluit, toto glomerantur nubila caelo; cum voluit, puro fulget in orbe dies. sanguine, si qua fides, stillantia sidera vidi; purpureus Lunae sanguine vultus erat.	10
hanc ego nocturnas versam volitare per umbras suspikor et pluma corpus anile tegi. suspikor, et fama est. oculis quoque pupula duplex fulminat et gemino lumen ab orbe venit.	15
evocat antiquis proavos atavosque sepulcris et solidam longo carmine findit humum.	

Petronius, A spooky story

cum adhuc servirem, amare coepi Melissam, uxorem Terentii cauponis, pulcherrimum bacciballum. huius contubernalis ad villam supremum diem obiit. itaque per scutum per ocream egi aginavi quemadmodum ad illam pervenirem: nam in angustiis amici apparent. 5

forte dominus Capuam exierat ad negotium expediendum. ego occasionem nactus persuadeo hospiti nostro ut mecum ad quintum miliarium veniat. erat autem miles, fortis tamquam Orcus. apoculamur nos circa gallicinia; luna lucebat tamquam meridie. venimus inter monimenta: homo meus coepit ad stelas 10
facere; sedeo ego cantabundus et stelas numero. deinde ut respexi ad comitem, ille exuit se et omnia vestimenta secundum viam posuit. mihi anima in naso esse; stabam tamquam mortuus. at ille circumminxit vestimenta sua, et subito lupus factus est. nolite me iocari putare; ululare coepit 15
et in silvas fugit. ego primo nesciebam ubi essem; deinde accessi ut vestimenta eius tollerem: illa autem lapidea facta sunt.

paene timore mortuus sum. gladium tamen strinxi et in tota via umbras cecidi, donec ad villam amicae meae pervenirem. ut 20
larva intravi, paene animam ebullivi, sudor mihi per crura fluebat, oculi mortui; vix umquam refectus sum. Melissa mea mirari coepit quod tam sero ambulare. 'si ante' inquit 'venisses, saltem nos adiuvises; lupus enim villam intravit et omnia pecora oppugnavit; tamquam lanius sanguinem illis 25
misit. nec tamen derisit, etiam si fugit; servus enim noster lancea collum eius traiecit'. haec ut audivi, operire oculos amplius non potui, sed luce clara domum fugi; et postquam veni in illum locum in quo lapidea vestimenta erant facta, nihil 30
inveni nisi sanguinem. ut vero domum veni, iacebat miles meus in lecto tamquam bos, et collum eius medicus curabat. intellexi illum versipellem esse, nec postea cum illo panem gustare potui, non si me occidisses.

Pliny, An alarming dream comes true

Gaius quidem Fannius id quod accidit multo ante praesensit. visus est sibi per nocturnam quietem iacere in lectulo suo compositus in habitum studentis, habere ante se scrinium – ita solebat. mox imaginatus est venisse Neronem, in toro resedissee, prompsisse primum librum quem de sceleribus eius ediderat, eumque ad extremum revolvisse; idem in secundo ac tertio fecisse, tunc abisse. expavit et sic interpretatus est, tamquam idem sibi futurus esset scribendi finis qui fuisset illi legendi: et fuit idem. 5

quod me recordantem miseratio subit quantum vigiliarum, quantum laboris exhausserit frustra. occursant animo mea mortalitas, mea scripta. nec dubito te quoque eadem cogitatione terreri, pro istis quae inter manus habes. proinde, dum suppetit vita, enitamur ut mors quam paucissima quae abolere possit inveniat. 10 15

Suetonius, The portents before the murder of Julius Caesar

sed Caesari futura caedes evidentibus prodigiis denuntiata est. proximis diebus equorum greges, quos in traiciendo Rubiconi flumini consecraverat ac vagos et sine custode dimiserat, comperit pertinacissime pabulo abstinere ubertimque flere. et immolantem haruspex Spurinna monuit ut caveret periculum, quod non ultra Martias Idus proferretur. pridie autem easdem Idus avem regaliolum cum laureo ramulo Pompeianae curiae se inferentem volucres varii generis ex proximo nemore persecutae ibidem discerpserunt. ea vero nocte, cui inluxit dies caedis, et ipse sibi visus est per quietem interdum supra nubes volitare, alias cum love dextram iungere; et Calpurnia uxor imaginata est conlabi fastigium domus maritumque in gremio suo confodi; ac subito cubiculi fores sponte patuerunt.

ob haec simul et ob infirmam valitudinem diu cunctatus an se contineret et quae apud senatum proposuerat agere differret, tandem Decimo Bruto adhortante ne frequentes ac iamdudum opperientes destitueret, quinta fere hora progressus est libellumque insidiarum indicem ab obvio quodam porrectum libellis ceteris, quos sinistra manu tenebat, quasi mox lecturus commiscuit. dein pluribus hostiis caesis, cum litare non posset, introiit curiam sprete religione Spurinnamque irridens et ut falsum arguens, quod sine ulla sua noxa Idus Martiae adessent: quamquam is venisse quidem eas diceret, sed non praeterisse.

Virgil, Dido prepares to curse Aeneas

at regina, pyra penetrali in sede sub auras erecta ingenti taedis atque ilice secta, intenditque locum sertis et fronde coronat funerea; super exuvias ensemque relictum effigiemque toro locat haud ignara futuri.	5
stant arae circum et crines effusa sacerdos ter centum tonat ore deos, Erebumque Chaosque tergeminamque Hecaten, tria virginis ora Dianae. sparserat et latices simulatos fontis Averni, falcibus et messae ad lunam quaeruntur aënis pubentes herbae nigri cum lacte veneni; quaeritur et nascentis equi de fronte revulsus et matri praereptus amor.	10
ipsa mola manibusque piis altaria iuxta unum exuta pedem vinclis, in veste recincta, testatur moritura deos et conscia fati sidera; tum, si quod non aequo foedere amantes curae numen habet iustumque memorque, precatur.	15
